ITALIAN TRADE AGENCY

🏠 Via Liszt 21 | 00144 Roma, RM - Italy

🌐 www.ice.it

ITA - Italian Trade Agency is the Governmental agency that supports the business development of our companies abroad and promotes the attraction of foreign investment in Italy.

With a motivated and modern organization and a widespread network of overseas offices, ITA provides information, assistance, consulting, promotion and training to Italian small and medium-sized businesses.

Using the most modern multi-channel promotion and communication tools, it acts to assert the excellence of Made in Italy in the world.

A CENTURY OF PROMOTING MADE IN ITALY WORLDWIDE

CNA

CNA - ARTIGIANI IMPRENDITORI D'ITALIA

CNA, the National Confederation of the Craft Sector and Small and Medium Enterprises, established in 1946, has been representing and protecting the interests of craft companies, SMEs, and all forms of self-employed workers for over sixty years.

The mission of the CNA is to enhance crafts and small and medium enterprises.

This objective is pursued through a structured and widespread organization, a system of companies providing integrated services and tailored consulting to enterprises and their members with assistance, information, and innovative solutions.

FINCO

Italian Federation of Industries for Products, Systems and Services for Construction, Maintenance, Mobility and Cultural Assets and Heritage

At the moment, FINCO Federation puts together 40 Associations representing, among the others, the following fields: historical and monumental restoration, renewable energies (e.g. biomass, geothermy and hydroelectricity), doors, overhead doors, shutters, roofings, technical curtains, mosquito nets, external and sunscreen protection systems and components, safety harnesses and belts, metal carpentry, fireplaces and stoves for interiors, safety fire systems, fastening tools, sound barriers, scaffoldings, geognosy surveys, accident prevention signs, façades with integrated sunshade systems, metal sheet building pieces, solar shields, zenithal systems, curtain wall, aluminium and pvc windows, doors and gates, rolling shutter, loading systems, roofing systems, pluvial and gutters, condominium administration companies, remediation and asbestos removal services, parkland and landscaping companies (realization and maintenance), plant system suppliers, war mine clearance and other services sectors linked to construction.

The Federation aims to increase the value and the visibility of each Federated Association.

FINCO mainly operates when its action can be more effective than the single Associations operating alone, helping firms to get in touch with the international market.

FINCO operates on behalf of its own Association through:

1. Parliamentary and Ministerial lobbying for the adoption of laws and decrees in order to help the represented sectors: providing amendments in the general legislative procedures (for example the Financial Law and related measures); following and stimulating the Public Administration work in significant issues (e.g. the Inter-ministerial Decree about the CE marking on the building products);
2. coordination and reinforcement of the Italian producers of materials, equipment and services inside the construction sector;
3. involvement in working groups on Ministerial issues, integrating and strengthening the weight of each Association;
4. collaborations with public and private national or international organizations belonging to the building and infrastructural sector;

5. organization and management of internal Working Groups to address the various issues of the Associations;

6. supplying the Associations with Counseling Services through experienced subjects in different

sectors;

7. promotion of events which allow to expand the market of the building materials, services and equipment .
